New First Responder

31 July 2009 - Dr Paul Mulligan qualifies as a Community First Responder

Congratulations to Dr Paul Mulligan who recently passed the West Midlands Ambulance Service First Responder Assessment.

Paul will shortly be joining Russ and Zarig, our two existing First Responders, on the duty rota and this will increase the number of hours that the team is able to provide emergency cover.

Paul is married with two young children and lives in Ettington. He is a partner in a local dental practice.

Paul says:

"It's great to be on the Ettington CFR team at long last! Thanks to everyone involved especially West Midlands Ambulance service for the fantastic life skills they've given me. It really can make the difference between life and death for someone in our community"

If you are interested in joining the team as a First Responder or as a fundraiser, please contact us at:
